

The Podunk City Study Club is pleased to host for an evening seminar:

## Dr. Van Haywood

### “Bleaching from the Youngest to the Oldest- answering your questions”

Van Haywood, DMD is currently a Professor at the Georgia Health Sciences University. He is considered the leading authority on vital bleaching in dentistry with hundreds of peer reviewed publications on this interesting topic. You and your staff will have the most current knowledge from the authority!

Although tray bleaching has been around for over 20 years, there are some questions that have only recently been answered by good research or long time experience. While some support current marketing claims, some are contrary.

The purpose of this lecture is to update you on current bleaching information of all types and for all ages and situations. The course will clarify answers to long-time bleaching questions based on published research, as well as clinical experience.

Upon completion of this course, participants will have a better understanding of:

- A proper bleaching examination
- Differences between hydrogen and carbamide peroxide and their impact on treatment
- The age specific recommendations for bleaching and safety issues
- Treatment for tooth sensitivity using bleaching trays and potassium nitrate
- Bleaching options for single dark teeth with internal and external stains
- Various tray fabrication techniques and indications - intraoral and laboratory

2 hour CE  
lecture credit  
will be  
awarded
